

# 25 YEARS OF INNOVATION TO CONNECT ECONOMIC WORLD & UNIVERSITY

Non profit organization, The Club des Entreprises mobilize companies and institutions of the two Savoie, (around 15 000 referenced contacts, with whom it has close relationships for the students and teachers of the University Savoie Mont Blanc. Since its creation in 1991, the Club des Entreprises has increased the number of schools partnerships within the University orienting its actions to all professional training session, in order to respond to all needs.

The Club is financially independant and has its own governance and strategies, impulsed by Directors who pilote its board.

Its budget provides essentially from companies and subvention from institutional partners. It is entirely used for its program by a team composed of 7 persons dispatched through out different schools on 3 campus.

To connect the economic world to University, the Club works on 3 projects :

1. **The use of skills from the companies to encourage professional teaching.**

Companies workers are invited to teach courses, advice on training, participate to jurys, participate to the school governance, boards meetings....

2. **Promote the different components of the University to Companies to facilitate professional introduction of the students.**

For internships and apprenticeship, the Club edits each years an Internship Calender given to companies. The Club gathers internship offers and dispatchs them to students. It also prepares them to the professional world by giving personal advices. The Club also spreads a business culture to students helping them create their own company.

3. **Network booster for students, teachers and professionals.**

More than ten events are organized each year : Business Week, « Feminin management », Apprenticeship Job Dating, Internships Festival, Training Job Kfé, Master Class, Job conferences, Partnerships, Idea Challenge.....

The Club's actions are motivated by solid results of employed students, skills, and local attractivity.

The Club reinforce the uniqueness of the Université Savoie Mont Blanc towards local governance and economic world in order to develop innovative local projects. The Club originality gives the University a unique approach compares to others university. The Club participates also of the creation of the University Savoie Mont Blanc Foundation and encourage the mobilization of companies' Directors to co-develop local projects.

The tight links between the Club and local Companies for the past 25 years, allows him to assure a strong relationship between economic world and the University. Let's remind us that the University Savoie Mont Blanc and the Club have received the "AEF Universités-Entreprises" price in 2013, given by the Minister of higher teaching and Reseach. The Club's actions is an example through out the Auvergne Rhône Alpes region and in France.

*« In 1991, the Club des Entreprises was created by local companies in order to reinforce their needs to come closer to fresh graduated students. Today, our Club is a unique partnership model for students. It stands on a strong network composed of local companie and institutions.*

*Together, we share the same pragmatic vision of superior teaching, which is that the students not only need a strong university education but also to optimize their job researches. When I see today some students from all over France choose the University Savoie Mont Blanc because of its Business Club, I know we succeeded for the past 25 years!»*

*Olivier Salaun, President of the Club des Entreprises of the University Savoie Mont Blanc, CEO of PSB Industries*
